FIG. 15

A cross-sectional view of a liquid crystal color filter assembly, designated by reference numeral 44. The assembly consists of a substrate 45, a liquid crystal layer 46, and a color filter layer 47. The color filter layer 47 is formed on the substrate 45 and includes a series of rectangular color filter elements 48. The liquid crystal layer 46 is disposed between the substrate 45 and the color filter layer 47. Arrows 49 indicate the light path through the assembly.
